

Jerry A. Selbher

July 2007

Fox Engineering Associates, Inc. of Ames, Iowa, is pleased to announce the addition of Mr. Jerry A. Selbher to the firm. Mr. Selbher holds a B.S. in Civil Engineering, as well as a B.S. in Biology. Both degrees, in addition to a Teaching Certification Program, were completed at Iowa State University.

Mr. Selbher brings professional experience in civil engineering, transportation, and stormwater management. Prior to the completion of his degree in civil engineering, Mr. Selbher instructed middle and high school students in physics, chemistry, astronomy, and earth science curriculums at both Newton and Mason City Community Schools.

Mr. Selbher is originally from Newton, Iowa, but currently resides in Ankeny with his wife, Teri.

He remains active in the community through various Christian organizations, including service as a Jasper County Jail Counselor. While attending college, Mr. Selbher was a member of Chi Epsilon and Phi Kappa Theta Academic Honor Societies, Vice President and President of Iowa State University's InterFraternity Council, and Co-Chair of the Fall Blood Drive.

FOX Engineering is an environmental engineering firm based in Ames, Iowa. It specializes in water, wastewater, and solid waste management solutions for its diverse governmental and industrial clients. The firm's environmental projects vary in size and scope and can be found throughout the Midwest and beyond. Jerry Selbher can be reached at 800/433-3469 or jas@foxeng.com
