

FOX Engineering Welcomes Steven Soupир to the Firm

Ames, IA – February 20, 2008 – FOX Engineering Associates, Inc. of Ames, Iowa, proudly announces the addition of Mr. Steven P. Soupир, P.E., to the firm. Mr. Soupир holds a B.S. in Civil and Environmental Engineering, in addition to a Master of Science in Engineering with an emphasis in geotechnical, structural, and environmental engineering. Both degrees were conferred at South Dakota State University.

In his position at FOX he will provide design services for site planning, land development, stormwater management, utilities, geotechnical, and environmental projects. He has site planning experience as a project engineer and a project manager for land development projects including residential, commercial, and industrial projects. His geotechnical experience includes work with electric transmission and distribution lines, substations, airport facilities, fuel storage facilities, power plants, water and wastewater treatment facilities, and solid waste disposal facilities.

Mr. Soupир and his wife, Michelle, a professor at Iowa State University, reside in Ames with their two young sons. They recently moved to Ames in order to be closer to family after living in Virginia for seven years.

FOX Engineering is an environmental engineering firm based in Ames, Iowa. They specialize in water, wastewater, and solid waste management solutions for their diverse governmental and industrial clients. The firm's environmental projects vary in size and scope and can be found throughout the Midwest and beyond. Steven Soupир, P.E., can be reached at 800/433-3469 or sps@foxeng.com.
