

Water for People conveys awards ...

Dave Fox of FOX Engineering Associates, Inc. in Ames, Iowa is a recipient of the Kenneth J. Miller Founders' Award for Leadership.

David M. Fox, representing the Iowa Section of the American Water Works Association, was presented the award in San Francisco, California in June 2005. Mr. Fox received the award for leadership in dramatically increasing the visibility of Water for People among the people of Iowa, including formation of a joint committee with the Iowa Water Pollution Control Association, and for boosting the level of contributions tenfold. Mr. Fox has made personal contributions as well as established a payroll deduction program at FOX.

The Kenneth J. Miller Founders' Award was established in 2001 by the Board of Directors for Water for People to honor outstanding volunteer service being contributed to this international humanitarian effort. Since its inception in 1991, local groups of water and sanitation professionals have launched active programs in support of Water For People, contributed financially to the organization and provided professional expertise. Kenneth J. Miller of Denver, Colorado, was one of the founders of Water For People and its first president.

Water for People is an organization that seeks a world where all people have access to safe drinking water, adequate sanitation and basic health services – a world where all people have safe drinking water and a world where no child dies from a water-related illness.

Dave Fox and FOX Engineering Associates, Inc. are proud supporters of Water for People. Through his active participation in Water for People, Dave Fox has been working toward the goal of helping the most impoverished people worldwide improve their quality of life by supporting sustainable drinking water, sanitation and hygiene projects.

If you are interested in helping with this wonderful work, please contact Dave Fox at 1-800-433-4369.
